

Anna Bezel

Graphic Designer • UI/UX Designer

anna.bezel.dev@gmail.com (669) 208-9301 Tucson, AZ <https://annabezel.github.io/me/>

Visual communications professional with 15+ years of experience creating brand-driven design for print, digital, web, and social media. Expertise in branding, marketing campaigns, typography, layout, UX, and production-ready design. Front-end development skills enable effective collaboration with developers and successful digital implementation.

PROFESSIONAL EXPERIENCE

Co-Founder & Brand Designer | 2021 – 2026 | <https://amazonianplants.com>

Amazonian Plants | Arizona, USA

- Developed a complete visual brand identity from the ground up — including logo, color system, packaging, and marketing collateral — ensuring consistency across all print and digital touchpoints.
- Designed and built the company website and managed all digital visual communications, including social media graphics and email campaigns.
- Managed the full creative process independently: concept, design, revision, and final delivery across multiple simultaneous project types.
- Gathered customer feedback to iteratively refine visual materials, applying audience-centered design thinking throughout.

Frontend Developer & UI/UX Designer | 2014 – 2015 | <https://gearhost.com>

GearHost | Colorado, USA (Remote)

- Designed and developed the UI/UX of a customer-facing portal for a web hosting platform, translating brand standards into responsive, accessible interfaces.
- Collaborated with cross-functional teams — including developers, product managers, and stakeholders — to create cohesive, user-centered digital experiences.
- Produced wireframes, visual mockups, and final design assets for iterative product releases, maintaining brand consistency throughout.
- Applied UX best practices and web accessibility principles to ensure usability across devices and user types.

Co-Founder & Creative Director | 2009 – 2014

Oziris | Lviv, Ukraine

- Co-founded a design and software studio delivering visual and digital solutions to U.S.-based clients across multiple industries.
- Led all graphic design work: brand identities, infographic assets, UI design, print materials, and presentation visuals for client campaigns.
- Partnered with writers, developers, and external vendors to produce integrated, multi-channel deliverables that met brand and audience requirements.
- Presented design rationale and creative recommendations to clients and stakeholders, incorporating feedback while advocating for effective solutions.

Intern Software Engineer | 2008 – 2009

UKEES | Lviv, Ukraine

- Contributed to frontend & backend development of a web-based taxi reservation system, gaining foundational experience in software product development.
